

04.01.10

We enrolled our eldest son Dylan at Kidz Biz over eighteen months ago and have also enrolled our youngest son Casey when he was just a few months old. We saw right from the first few days at the centre that Kidz Biz would teach our child respect, self-discipline, self-control, as well as self-esteem.

I've seen a positive change in both their interactions with us, and their approach to their chores and helping others out. After trying another day care centre prior to Kidz Biz we were delighted that we had found a program that promotes personal values.

I was also more than happy with the care given to my son Casey when he was in the Babies room from Anom, Hue & Jo and since he moved up to the toddlers with Mel & Roz.

Debbie Spratling.
